

HEALTHIER HOSPITALS 2.0  
COMPLIANT PRODUCTS

**B R I G H T<sup>®</sup>**

A PRACTICE GREENHEALTH PROGRAM

In all of our manufacturing processes, Bright respects our environment. We offer a wide range of native Northeastern hardwoods for use in our products. We understand the balance of supply afforded by select harvesting and have been using only Forest Stewardship Council Certified domestic sources for decades. We use only water-based adhesives and catalytic finishes with low VOC content in our finishing process.

All of Bright Chair Company's products meet the Safer Chemicals Challenge of the Healthier Hospital Healthy Interiors Goal (version 2.0)\*. All furniture meets the aforementioned guidelines and are free of;

- Flame Retardants
- PFC (Perfluorinated Compounds),
- PVCs (Polyvinyl Chloride),
- Formaldehyde
- Antimicrobials

All Bright Chair products are COM (Customer's Own Materials); customers must be responsible for fabric content of the material they provide.

All products are made standard to meet CAL117-2013; if specified to meet CAL133, the required flame retardant would be used.

*Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge according to the manufacturer. Practice Greenhealth does not verify this information.*
